

## Oh Poor State Budget

Oh poor State budget  
what ever will we do with you?  
You are a puppet  
not of the people  
but of the government  
you are constantly at their whim  
increasing the dread  
of both students and teachers.  
The community's wallets are  
at their breaking point.  
Sorry, they had their  
fingers crossed  
when they promised  
to fix you.  
Now let's pull the trigger  
on this useless chaos,  
don't let them dip into  
the already limited resources.  
State budget, don't delay  
the classrooms are overcrowded  
with the losers of this battle.  
California has become a bloodbath  
of costs  
a million here, a thousand there.  
Oh poor State budget  
what will you do for us?
