

Eva Ochoa, CSUMB

Bob Wired Gates

California's deficit crisis is at a \$9.2 billion

Education, healthcare, criminal justice which services will receive?

Criminal justice like we always see of course

Gets the help that education desperately needs!

California complains about youths needing to be more refined to lessen crime rates

Yet the first cuts goes to EDUCATION, so our government is showing us nothing but hate.

Education may save our souls,

But the government and voters are creeping in like devil advocates

Wasting Californians dollars on bob wired gates

Spending money on K-12 and higher education programs is BEST

Help our dreams come true and invest more funds on Education

Support us and you'll see

Crime rates will fade and fewer prisons we will need!

Give us hope and increase taxes for those who smoke!
