

“More Money For CA”

The state of California is in debt
And Governor Brown has tough decision to make
Will Governor Brown take money from the rich and give it to the poor?

or

Will Brown increase the tax on
Cigarettes, Oil and Alcohol
And close the debt gap for once and for all!
Will the big corporations agree to pay more
So that students like me can way contribute in the future
Even more!

Students with a promising future

Or

Prisoners on petty theft eating, sleeping and playing with our debt

California is smart

California can no longer support Medi-cal

Our seniors will suffer

Our children will forget

That California once was the capital of Microsoft and Ipods!

Instead remember that their schools did not have

Textbooks and Chalk

Governor Brown needs to carefully assess

How the future of our children will affect

Innovation, progression and success!

Lets cut to the chase

and

Reconsider treating corporations

Like the average Joe

And increase the tax on

Cigarettes, Oil and Alcohol!
